

## Standard Material Transfer Agreement

This Standard Material Transfer Agreement (this "Agreement") is by and among you ("Recipient Institution" or "You"), and the Arizona Board of Regents, an instrumentality of the state of Arizona, acting for and on behalf of Arizona State University ("ASU"). You are being provided with Materials that were developed by researchers ("Depositor Scientists") working at one or more originating institutions (each, a "Depositor Institution"). The Depositor Institutions are the beneficiaries of, and may independently enforce, this Agreement. The Materials, together with any replicas and unmodified derivatives thereof, shall be referred to as the "Materials."

Recipient Institution hereby agrees as follows:

1. The Materials are the property of the Depositor Institution and are made available as a service to the research community.
2. The Materials may be used solely for teaching or internal, non-commercial biomedical or non-commercial biological research purposes.
3. THE MATERIALS MAY NOT BE USED IN HUMAN SUBJECTS.
4. The Materials will not be further distributed to others without the Depositor Institution's prior written consent and in any event shall not be distributed in violation of any of the U.S. export laws including the Export Administration Regulations ("EAR"), U.S. Department of Commerce, 15 CFR Parts 730-774 ; International Traffic in Arms Regulations ("ITAR"), U.S. Department of State, 22 CFR Parts 120-130; and Office of Foreign Assets Control ("OFAC") Regulations, U.S. Department of the Treasury, 31 CFR Parts 500-599.
5. You shall refer any request for the Materials to ASU or the applicable Depositor Institution. To the extent supplies are available, ASU or the Depositor Institutions agree to make the Materials available, under a separate material transfer agreement to other scientists solely for teaching or internal, non-commercial biomedical research purposes.
6. You agree to acknowledge, or ensure that your scientists acknowledge, the Depositor Institution and respective Depositor Scientists as the source of the Materials and ASU as the provider of the Materials in any publications reporting use of Materials.
7. You understand that the Materials are experimental in nature and may be toxic, hazardous, infectious or otherwise dangerous to human beings, animals, property and/or the environment. ASU AND THE DEPOSITOR INSTITUTIONS MAKE NO REPRESENTATIONS AND DISCLAIM ANY WARRANTIES OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR THAT THE USE OF THE MATERIALS WILL NOT INFRINGE ANY PATENT, COPYRIGHT, TRADEMARK, OR OTHER PROPRIETARY RIGHTS.
8. Except as provided in subsection 8.1 below, Recipient Institution assumes all liability for claims for damages against it by third parties which may arise from its or its scientists' use, storage, or disposal of the Materials.

To the extent permitted by law, Recipient Institution agrees to hold ASU and the Depositor Institutions harmless from and to indemnify ASU and the Depositor Institutions for all liabilities, demands, damages, expenses and losses arising out of Recipient Institution's or its Recipient Scientists' use of Materials for any purpose.

8.1 If Recipient Institution is a U.S. state institution, federal M&O contractor or federal agency, or is operated by a state agency, then no indemnification for any loss, claim, damage or liability is intended or provided under this agreement; each party shall be liable for any loss, claim, damage or liability that it incurs as a result of its activities under this agreement only to the extent provided under the Federal Tort Claims Act (28 U.S.C. Chapter 171).

9. You undertake to use the Materials in compliance with all applicable laws. Recipient Institution will have safety and security procedures and policies in place to ensure compliance with all obligations hereunder.

10. Additional requirements with respect to certain Materials are set forth in the Addendum attached to this Agreement. Such requirements are incorporated into and made a part of this Agreement.
